Our Rebuilding Sale

Is like a comet, which sweeps through the heaven, leaving behind the trail of fire which illuminates all the sky. So it is with this sale. It sweeps through the firmament of all the lesser ones. It scatters behind it a perfect rain of bargains such as only a sale of this kind can shower. Monday starts another week where boiled down prices will show their hand. You'll find values just as good at the end as at the beginning. One day as the other.

The
Smith
Building.

First floor, section G, Busy Corner.

Wash Goods Again.

There's nothing better to offer these hot days than this line of goods. Everybody wants them, and it seems as though everybody buys them. These Rebuilding Sale Prices are very special:

The balance of the finest Imported Dimities, and these are the sheerest made, imperial Swisses, which are the counterpart of those fine mohair weaves—imported foulardines—you know, they look like silk—and the last, but not the least, imported and Mercerized Madras—these goods never sold under 25¢ to 35¢ per yard—Rebuilding Sale **15¢**

We quoted the offering of 10,000 pieces of Dimities and Batistes the past week, and they proved to be the greatest card of the season with us—about half were sold—the other half must be sold—they are of the sheerest and finest cloth—the patterns opened the eyes of every buyer—just think of it—genuine 12½¢ Wash Fabrics, in stripes, dots, figures, and other designs, in most every color shown—sold during this Rebuilding Sale **6½¢**

500 pieces of the prettiest fabric you ever saw for the money—we are showing them in every color and every design imaginable—we have filled table after table of these washable fabrics, which others are asking 6¢ and 7¢ per yard for and made the Rebuilding **3½¢**

500 pieces of this season's most popular Piques, blue on white only, stripes and dots, not a pattern but what has the best of style, which sold for 12½¢ per yard—Rebuilding **6½¢**

English Cord—they imitate the imported kind, in patterns as well as colors—among them you will find many desirable designs in blacks and whites, which are so very scarce this season—you can select styles which are scarce and not shown by other houses—regular 15¢ value—Rebuilding **8½¢**

White Ground Piques with dots, figures, and stripe effects, navy blue with white dots—you know how popular they are for shirts and shirt waist suits—and how scarce the desirable patterns are—they are worth 25¢—Rebuilding Sale **12½¢**

50¢ to \$1.00 Wash Fabrics—classed among the finest—imported by us—every piece is an entirely different pattern—they come in woven effects, jacquard designs, grenadine novelties, foulard, and embroidered mouseline—Rebuilding **29¢**

10 pieces of Sheer Linen Batiste, very popular this season, and which ought to bring 25¢ per yard, but we have reduced them during this Rebuilding Sale to **19¢**

200 Bathing Suits in Either Brilliantine, Mohair, or Flannel.

Every suit cut full and finished perfectly in every detail—they are trimmed in various neat styles with plain or sailor collar—every suit is fitted with a bone corset waist, thus giving the figure a neat and perfect shape. We have sold them for \$1.00, \$1.50, and \$5.00. We have placed them in this Rebuilding **\$2.98**

A bargain of this kind should not be missed. On sale second floor, front, Busy Corner Building.

Woolen Dress Goods

The kind which is always seasonable. These enticing prices are more than apt to assist us to force selling:

25 pieces more of Navy Blue Mohair, the very thing for bathing suits, full 1 yard wide and fast color—Rebuilding Sale Price..... **23¢**

2 very good grades of All-wool Cream Storm Serges—one is 46 inches wide and sold for 69¢, the other 44 inches wide, which this Rebuilding Sale Price has reduced to..... **69¢**

46-inch Cream Storm Serge, which was sold for 89¢, reduced to..... **89¢**

38-inch Pure Mohair Luster, these goods are warranted strictly fast black, and as we have not the 46-inch wide grade, which is sold for 49¢, reduced to..... **49¢**

The 46-inch grade, which was sold at 59¢, reduced to..... **59¢**

The 46-inch grade, which was sold for 79¢, reduced to..... **79¢**

Johnson-Luttrell Annex.

We Again Call Your Attention to Mattings.

And at these prices you can well afford to not alone look, but buy. They are reduced as follows on account of rebuilding:

Best equipped magazine department in the city—all mail orders carefully attended to.

Basement annex—Busy Corner Building.

AFFAIRS OF THE DISTRICT.

A Call for Street Improvement in Northeast Washington.

The East End Suburban Citizens' Association Submits a Formidable Schedule to the Commissioners—Condemnation of Street Lamps.

John H. Ruppert, Chairman of the Committee on Streets of the East End Suburban Citizens' Association, called on the Commissioners yesterday and submitted for their consideration a list of improvements that are thought to be urgently needed in the Northeast section of the city. The committee also ask that in making up the annual estimates the Commissioners include sufficient money to cover the cost of the contemplated improvements.

The committee is composed of John H. Ruppert, Chairman; William H. Ernst, Robert Bowdler, Charles R. Talbot, J. M. Burr, A. W. Staines, and J. M. Wood. In their communication to the Commissioners the committee say:

"In view of the fact that the Bladensburg Road is one of the main arteries of travel leading into the city, and the only means of ingress and egress for thousands of our people, we urgently request that at least \$12,000 of the current appropriation for the county roads be spent in continuing the permanent improvement of said roadway to Mount Olivet Cemetery.

"We ask that \$20 of the current appropriation for the repair of county roads be spent in making repairs to M Street from the top of the hill to Twenty-eighth Street northeast. Recent rains have damaged the roadway and longer delay in making repairs would render the same more expensive.

"We ask that \$4,000, or as much thereof as may be necessary, of the current appropriation for the repair of county roads be spent in making repairs to Bladensburg Road from the Hamilton School house east to the District line. This stretch of roadway has long remained in a neglected condition and numerous complaints have reached us. In some places the entire surface of the road has nearly disappeared.

"We urgently request that you include in your estimate for the fiscal year ending June 30, 1902, the sum of \$25,000, to be spent in continuing the permanent improvement of the Bladensburg Road eastward.

"We ask that a line of shade trees be planted along the south side of Dean's Road to the Bladensburg Bridge. In summer time both man and beast are needlessly exposed to the blazing rays of the sun along the entire road between the points named.

"In view of the alarming frequency with which accidents occur at the railroad crossing at Langdon, we confidently hope that you will find a way to compel the Baltimore and Ohio Railway Company to maintain a crossing watchman at that point.

"We ask that you take steps at once to compel the Columbia Railway Company to prepare a regular schedule of trains on

its extension from Fifteenth and H Streets northeast to Chesapeake Junction, and to operate the same at intervals not exceeding fifteen minutes. The present irregular schedule, by which trains run at intervals of forty minutes during the greater part of the daytime, is hereby declared to be highly unsatisfactory to the residents living along the line and to thousands of other people of this city who use this line for purposes of business and pleasure.

"We urge upon your attention the necessity for the opening of the following streets: 1. Street from the Bladensburg Road to Maryland Avenue northeast; Maryland Avenue from I Street through M Street, E Street from the Bladensburg Road to Twenty-eighth Street; Twenty-eighth Street from the Bladensburg Road to the Bladensburg Road.

"We ask that you furnish a plat showing the owners of the property through which Maryland Avenue northeast would run from Fifteenth and H Streets to M Street; R Street east of the Bladensburg Road to Twenty-eighth Street, and Twenty-eighth Street from the Bladensburg Road to the Bladensburg Road, so that the association may be able to secure the signatures of those who may be willing to dedicate the ground for the opening of these streets.

"We ask your hearty concurrence in a movement for the establishment of a public park at the intersection of the Bladensburg Road and the old Grand Island Cemetery, containing about 20,000 square feet. Since there is at present only one public park in Northeast Washington we are confident you will cheerfully join this committee and the association in an effort to acquire this much needed breathing spot in our section.

"The Commissioners yesterday considered several tax cases referred to them by the Assessor with his recommendations thereon. The Commissioners in each case have based their action upon these recommendations, and the applicants will be informed accordingly.

"W. J. Penrod, of Brookland, asked that the tax for 1899 on lot 3, block 27, Brookland, be refunded on the ground that it was omitted on a tax certificate issued by the Tax Office October 13, 1900. The Assessor, in his report on the application, stated that the ledger shows that the tax omitted from the certificate has since been paid, and that it is not a duplicate tax or an erroneous payment. For this reason an adverse recommendation is made.

"W. Walton Edwards, for Alexander Hunter, requested that the water main tax against 1,320 acres on Brightwood Avenue be canceled on the ground that the tract mentioned is not sub-divided, but is agricultural land. The Assessor recommends that the assessment be canceled.

"Oliver McIlhenny protested against water main assessment against lots 1 and 3, inclusive, square 187. The Assessor states that the water main is located by the applicant as having been ordered canceled by the court has no bearing upon the present assessment, which was made in accordance with law.

"W. Mosby Williams, for Rev. John Heckett, has requested that the water main tax upon lot 12, square 124, be declared erroneous, and that the owner be permitted to sue the principal on the basis of a re-assessment. The Assessor reviews the history of the case, and informs the Commissioners that he sees no reason for changing the assessment and recommends that the applicant be so informed.

"W. F. Sullivan has reported several erroneous tax sales and asks authority to charge them off the accounts and to

refund the money paid by the purchasers. This report has the favorable recommendation of the Assessor.

Thomas J. Fisher, Inspector of Electric Lighting, has asked the Commissioners for authority to certain terms on hand at the storage warehouse and those used on certain streets, on the ground that they have served their period of usefulness. "I have the honor to recommend," says Mr. Fisher, "that the eighty Robinson and Miner lamps which have recently been taken off the lamp posts on Massachusetts Avenue, Sixteenth and P Streets northwest, and replaced with Welsbach lamps be condemned and transferred to the property yard.

"These lamps have been in service several years and experience has shown that they are not as well adapted for the lighting service as the square Washington lantern. They are hard to keep clean and the general radiation is not as good as the other lantern. As these lamps will not be used, again, and as we have not the space to store them, I make the request that this lot be condemned and that authority be granted to turn into the property yard other lamps of this style which the department contemplates removing and replacing.

"The Commissioners have approved the recommendation and orders will be issued accordingly.

Charles E. Phelps, Jr., Chief Engineer of Baltimore, has addressed a communication to the Commissioners asking for certain information relative to the water and gas pipes and lead-covered underground cables. Mr. Phelps states that when the replies to his enquiries, which are included in schedules accompanying his letter, are received he proposes to collate them and send a complete report to the Commissioners, including a similar statement of conditions in Baltimore. The enquiries relate to water mains, gas mains, and lead-covered cables.

Mr. Phelps states that the particular purpose in securing this data for Baltimore is to enable the city and the operating street railway companies to cooperate to better advantage in rectifying the conditions which exist in the city and in the country, he is led to believe, are struggling.

Andrew B. Duval, the Attorney for the District, has submitted to the Commissioners a statement relative to the communication of George W. Strong, who protested against the obstruction placed in the alley of square 101. Mr. Duval states that a bill in equity was filed in June, 1900, against the District of Columbia, M. J. Keane, and others, to cancel the subdivision of the alley, which is a part, and that a restraining order was issued against the District. Mr. Duval states that the bill was joined in October, 1900, on the answers filed, and no further proceeding has been taken in the case by the complainant. Continuing Mr. Duval says:

"The District is unable to deal with the alleged obstruction with the court because the question raised in the equity case, which has developed the alleged dedication of the alley to the public."

The Fire Department has received the five Browder life-saving nets ordered a month ago for the use of the truck companies. One of these devices will be carried on each of the trucks for use whenever occasion may require. The tests

made of this apparatus when it was on trial showed that the life-saving net was of the greatest use in rescuing persons from burning buildings without injury or loss of time. The net is so arranged that a person falling or jumping from a great height strikes in the net and is caught in the net. It is calculated that any person can jump from the highest building in Washington and be caught in the net without injury, with no more harm than lying down suddenly upon a lounge.

C. F. Keefer, of 216 Second Street southeast, has complained of the condition of Second Street between C and D Streets. The complaint was referred to the Superintendent of Street Cleaning, who yesterday reported that the street in question is scheduled for two sweepings a week, and that it was swept on the nights of the 7th and 12th inst. The condition at other times is probably due to the building operations in progress on the street, and the building contractors should be required to keep the roadway clean while using the same for building purposes. Mr. Keefer recommends the reference of the complaint to the Police Department for their action.

A petition numerously signed by the residents and property holders of West Washington has been handed to the Commissioners asking that they be provided with market facilities. The petitioners call attention to the abandonment of the large building on M Street, between Thirtieth and Thirty-third Streets, by the street railway company, and to the property of purchasing the same for market purposes. They state that the building on water and gas pipes and lead-covered underground cables. Mr. Phelps states that when the replies to his enquiries, which are included in schedules accompanying his letter, are received he proposes to collate them and send a complete report to the Commissioners, including a similar statement of conditions in Baltimore. The enquiries relate to water mains, gas mains, and lead-covered cables.

Mr. Phelps states that the particular purpose in securing this data for Baltimore is to enable the city and the operating street railway companies to cooperate to better advantage in rectifying the conditions which exist in the city and in the country, he is led to believe, are struggling.

Andrew B. Duval, the Attorney for the District, has submitted to the Commissioners a statement relative to the communication of George W. Strong, who protested against the obstruction placed in the alley of square 101. Mr. Duval states that a bill in equity was filed in June, 1900, against the District of Columbia, M. J. Keane, and others, to cancel the subdivision of the alley, which is a part, and that a restraining order was issued against the District. IN AND ABOUT THE CITY.

A Baltimore Elder to Preach.

Elder H. Danforth, of Baltimore, will again preach at St. John's Hall, 726 Sixth Street northwest, at 8:30 o'clock this afternoon. The public is cordially invited.

A Shot Machine Robbed.

John J. Muller reported to the police last night that his cash office at 299 D Street northwest was entered early last night. Twenty-five cents was stolen from a cigar shot machine. Entrance was effected by prying open a window.

Unable to Bury Her Child.

Stephen Branch, the four-year-old child of Nellie Branch, a colored woman who lives at 1224 Hayes Court northwest, died yesterday afternoon without medical attention. The woman is so poor that she is unable to bury this child, which was taken in charge by the authorities. The Coroner was notified.

Injured by Exploding Soda.

George Hibbas was badly cut about the face by the explosion of a soda water bottle at the Arlington Bottling Works yesterday afternoon. The flying bits of glass made a number of injuries in his face. He was taken to Columbia University Hospital and received treatment, after which he was returned to his home.

The Wrong Man Arrested.

"Pip" Jackson, a colored man well-known to the police, was arrested last night and taken to the Third precinct station, suspected of complicity in the case of highway robbery for which Samuel Clements was yesterday held for the grand jury. It was found upon investigation, however, that he was not the man wanted, and he was released.

Sheds Damaged by Fire.

An alarm of fire was sounded at 2 o'clock yesterday afternoon for a fire of unknown origin in a warehouse in the rear of 2000 Brightwood Avenue northwest, owned by J. R. Freeman and occupied by Leon Adler. The fire quickly spread to the sheds in the rear of the adjoining property before it was extinguished by the firemen. The damage is estimated at \$100, covered by insurance.

New Officers Installed.

At a recent meeting of Capital Circle, No. 315, of the Protected Home, Circle, the following officers were installed for the ensuing year: Past President, Philip Lohrer; President, Jennie E. Abbott; Vice President, Bertie Kircher; Guardian, John Woodcock; Secretary, W. H. Alden; Assistant, Emma E. Deban; Treasurer, John Deban; Chaplain, May H. Wright; G. M. L. N. V. Rose; Companion, Susan J. Miller; Porter, James A. Reece; W. M. W. Woodcock; Medical Examiners, Dr. N. P. Barnes and Dr. George Warren.
